Wendell Industrial Co., Ltd.
Declaration of Consolidated Financial Statements of Affiliates

The entities that are required to be included in the combined financial statements of Taiwan Semiconductor Manufacturing Company Limited as of and for the year ended December 31, 2024, under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with the International Financial Reporting Standard 10, "Consolidated Financial Statements". In addition, the information required to be disclosed in the combined financial statements is included in the consolidated financial statements. Consequently, Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries do not prepare a separate set of combined financial statements.

Very truly yours,

Wendell Industrial Co., Ltd.

By

KAO, CHIH-HUNG
Chairman

Independent Auditors' Report

(114) Cai-Sheng-Bao-Tzu No. 24004328

Wendell Industrial Co., Ltd.:

Opinions

We have audited the accompanying consolidated balance sheets of Wendell Industrial Co., Ltd. and its subsidiaries (the "Group") as of December 31, 2024 and 2023, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2024 and 2023, and notes to the consolidated financial statements, including the summary of significant accounting policies (collectively "the consolidated financial statements").

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2024 and 2023, and their consolidated financial performance and cash flows for the years ended December 31, 2024 and 2023, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards, International Accounting Standards, Interpretations developed by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee as endorsed and became effective by Financial Supervisory Commission of the Republic of China.

Basis for Opinions

We conducted our audits in accordance with the Regulations Governing the Auditing and Attestation of Financial Statements by Certified Public Accountants and Auditing Standards. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China ("The Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the Group and its subsidiaries for the year ended December 31, 2024. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matters of the consolidated financial statements of Wendell Group in the year 2024 are as follows:

Loss allowance for accounts receivable

Instruction for the matter

For the accounting policy regarding accounts receivable, accounting estimates and assumptions of impairment evaluation, and instructions related to impairment, please see Note 4 (9) and 4(10), Note 5 (2) and Note 6 (4) of the consolidated financial statements.

Wendell Group evaluates the impairment of accounts receivable and calculate expected loss ratio with reference to historical experience and in consideration of the customers' previous default records and current financial position, etc., to recognize loss allowance. Additionally, if the accounts receivable from individual customers are individually identified with a trace of impairment, or actual credit impairment, the Company will draw loss allowance. During the process of impairment evaluation of accounts receivable, the management applies judgment and estimates to determine the future recoverability, while its future recoverability is affected by various factors like the management's assumptions of credit risks of customers. Therefore, the CPA will include the estimates of impairment of accounts receivable as a key audit matter.

Responsive audit procedures

The audit procedures already executed by this CPA are summarized as follows:

1. Learn about and evaluate credit risk management as well as policies related to impairment evaluation of accounts receivable and internal control.
2. Learn about the computational logic of the aging statement of ending accounts receivable provided by the management, review relevant supporting documents, and check the book records to confirm the correctness of the classification of aging periods.
3. Recheck the supporting documents provided by the management for evaluation regarding the major impairment of accounts receivable as individually recognized by the management, to evaluate the reasonableness of the possibility of recovery.
4. Verify the subsequent collections of overdue accounts receivable with a significant sampling amount.

Inventory valuation

Instruction for the matter

For the accounting policy, accounting estimates and assumptions related to inventory valuation, please refer to Note 4 (12), Note 5 (2) and Note 6 (5) of the consolidated financial statements for details.

Wendell Group is mainly engaged in the sales of various kinds of electronic components. The ending inventories are measured at the cost or net realizable value, whichever is lower. At the same time, the falling price loss is drawn based on the useful status of outdated and obsolete inventories that have been individually identified. Such inventories feature short life cycle and fierce market competition, and the allowance for reduction of inventory individually identified

as outdated and obsolete involves the management's subjective judgment. Therefore, the CPA includes the estimates of such inventory evaluation losses as a key audit matter.

Responsive audit procedures

The audit procedures already executed by this CPA are summarized as follows:

1. Learn about the operation of the Group and the nature of the industry, and evaluate the reasonableness of the internal control procedure and withdrawal policy adopted by the Company to address the loss on the allowance for reduction of inventory.
2. Test the basis of market price of net realizable value of individual inventories and conduct spot check to confirm whether the net realizable value is correctly calculated.
3. Learn about the warehousing management process of the Group, review its annual inventory plan, and participate in the evaluation of its annual inventory checking on the site, to evaluate the effectiveness of the inventory control of the management.
4. Acquire the details of outdated inventories individually identified by the management, review relevant documents, and check them with the book records.

Other Matter – the Parent Company Only Financial Statements

We have also audited the parent company only financial statements of Wendell Industrial Co., Ltd. as of and for the years ended December 31, 2024 and 2023 on which we have issued an unmodified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

To ensure that the Consolidated Financial Statements do not contain material misstatements caused by fraud or errors, the management is responsible for preparing prudent Consolidated Financial Statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for preparing and maintaining necessary internal control procedures pertaining to the Consolidated Financial Statements.

In preparing the Consolidated Financial Statements, the management is responsible for assessing the Group ability to continue as a going concern, disclosing, as applicable, matters related to the going concern and using the going concern basis of accounting unless the management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the Audit Committee, are responsible for overseeing the Groups' financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatements, whether due to fraud or error, and

to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and evaluate the risk of material misstatements due to fraud or error in the Consolidated Financial Statements; design and carry out appropriate countermeasures for the evaluated risk; and obtain sufficient and appropriate evidence as the basis for audit opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Group.
3. Assess the appropriateness of the accounting policies adopted by the management, as well as the reasonableness of their accounting estimates and relevant disclosures.
4. Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group ability to operate as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall expression, structure and contents of the Consolidated Financial Statements (including relevant Notes), and whether the Consolidated Financial Statements fairly present relevant transactions and items.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision, and performance of the audit and for expressing an opinion on the Group's audits.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all

relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine the key audit matters of the Groups' Consolidated Financial Statements for the year ended December 31, 2024. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Wendell Industrial Co., Ltd. and Subsidiaries
Consolidated Statements of Cash Flows
December 31, 2024 and 2023

Unit: In Thousands of New Taiwan Dollars

	Note	2024	2023
<u>Cash flows from financing activities</u>			
Increase (decrease) in short-term loans	6(24)	(1,478)	102,885
Proceeds from long-term debt	6(24)	14,000	-
Decrease in Guarantee deposits paid	6(24)	-	(140)
Payments of lease liabilities	6(24)	(36,519)	(35,051)
Capital increase by cash	6(14)	262,500	-
Cash dividends paid	6(16)	(120,420)	(121,934)
Net cash generated from (used in) financing activities		<u>118,083</u>	<u>(54,240)</u>
Effect of exchange rate changes		<u>(11,385)</u>	<u>(3,674)</u>
Net increase in cash and cash equivalents		164,873	104,208
Cash and cash equivalents at beginning of period		<u>478,129</u>	<u>373,921</u>
Cash and cash equivalents at end of period		<u>\$ 643,002</u>	<u>\$ 478,129</u>

The accompanying notes constitute part of the parent company only financial statements.

Wendell Industrial Co., Ltd. and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2024 and 2023

Amount in Thousands of New Taiwan Dollars
(Unless Otherwise Specified)

1. Company History

Wendell Industrial Co., Ltd. (hereinafter referred to as the “Company”) was incorporated on June 1979. The stock of the Company was approved for public offering in September 2019, and initially traded at Taipei Exchange since November 8, 2021. The Company and its subsidiaries (hereinafter referred to as “the Group”) is mainly engaged in the import and export trade business, sales of electronic and electromechanical materials like capacitors, resistors and inductors, and relevant services and certification regarding electromagnetic compatibility.

2. Date of Authorization for Issuance of the Parent Company Only Financial Statements and Procedures for Authorization

The accompanying consolidated financial statements were approved and authorized for issue by the Board of Directors on March 5, 2025.

3. Application of New and Amended Standards and Interpretations

(1) Impact of the adoption of new and amended International Financial Reporting Standards (IFRSs) recognized, released and enforced by the Financial Supervisory Commission (hereinafter referred to as “FSC”)

The IFRSs issued by International Accounting Standards Board (IASB) and endorsed by the FSC with effective date starting 2024:

<u>New/Revised/Amended Standards and Interpretations</u>	<u>Effective Date Issued by IASB</u>
Amendments to IFRS 16 “Lease liabilities under leaseback”	January 1, 2024
Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”	January 1, 2024
Amendments to IAS 1 “Non-current Liabilities with Covenants”	January 1, 2024
Amendments to IAS 7 and IFRS 7 “Supplier Finance Arrangements”	January 1, 2024

The Group confirmed through evaluation that the aforesaid standards and interpretations didn’t have a significant impact on its financial position and financial performance.

(2) Standards or interpretations issued, revised or amended, by IASB which are endorsed by FSC, but not yet adopted by the Group

The IFRSs issued by International Accounting Standards Board (IASB) and endorsed by the FSC with effective date starting 2025:

New/Revised/Amended Standards and Interpretations	Effective Date Issued by IASB
Amendments to IAS 21 “Lack of Exchangeability”	January 1, 2025

The Group confirmed through evaluation that the aforesaid standards and interpretations didn’t have a significant impact on its financial position and financial performance.

(3) The IFRSs issued by IASB but not yet endorsed and issued into effect by the FSC

The IFRSs issued by IASB but not yet endorsed and issued into effect by the FSC are listed below:

New/Revised/Amended Standards and Interpretations	Effective Date Issued by IASB
Amendments to IFRS 9 and IFRS 7-“Amendments to the Classification and Measurement of Financial Instruments”	January 1, 2026
Amendments to IFRS 9 and IFRS 7-“contracts that reference nature-dependent electricity”	January 1, 2026
Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”	To be determined by IASB
IFRS 17 “Insurance Contracts”	January 1, 2023
Amendments to IFRS 17 “Insurance Contracts”	January 1, 2023
Amendments to IFRS 17 “First-time Adoption of IFRS 17 and IFRS 9 - comparative information”	January 1, 2023
Amendments to IFRS 18 “Presentation and Disclosure of Financial Statements”	January 1, 2027
IFRS 19 “Subsidiaries without Public Accountability: Disclosures”	January 1, 2027
Annual Improvements to IFRS Accounting Standards - Volume 11	January 1, 2026

Except the contents mentioned above, the Group has evaluated and confirmed that the aforesaid standards and interpretations did not have any material impact on its financial position and financial performance.

IFRS 18 “Presentation and Disclosure in Financial Statements” has been adopted in replacement of IAS 1. Also, the structure of the comprehensive income statement has been updated, and the disclosures of management performance measurement been added. Furthermore, the application of principles for the summarization and segmentation of the major financial statements and notes has been strengthened

4. Summary of Significant Accounting Policies

The significant accounting policies adopted for the preparation of the consolidated financial statements are described as follows. Unless otherwise specified, such policies should be consistently applied in all reporting periods.

(1) Statement of Compliance

The consolidated financial statements were prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (“the Regulations”) and International Financial Reporting Standards, International

Accounting Standards, and Interpretations developed (hereinafter referred to as “IFRSs”).

(2) Basis of Preparation

- A. The consolidated financial statements were prepared at historical cost except the following important items:
- (A) Financial assets and liabilities measured at fair value through profit or loss
 - (B) Defined benefit liabilities recognized at the net present value of retirement fund assets after deduction of defined benefit obligations.
- B. Some significant accounting estimates shall be used to prepare financial statements that comply with IFRSs. In the application of the Group’s accounting policies, the management is required to apply its judgment. For highly judgmental or complicated items, or items involving the significant assumptions and estimates of the consolidated financial statements, please see Note V for details.

(3) Basis of Consolidation

- A. Preparation principle of consolidated financial statements
- (A) The Group includes all subsidiaries as individuals for the preparation of the consolidated financial statements. A subsidiary refers to an individual (including a structured individual) controlled by the Company. When the Company is exposed to variable compensation from its participation in this individual, or enjoys rights over the variable compensation, and the Company has the ability to impact such compensation through its power over this individual, the Company controls this individual. The subsidiaries are included into the consolidated financial statement since the date when the Group obtains the control over it, and the consolidation is terminated on the date when the control is lost.
 - (B) The transactions, balance, and unrealized profit or loss between the companies in the Group have already been written off. The accounting policies of the subsidiaries have already been adjusted necessarily, to align with the policies adopted by the Group.
 - (C) Each constituent part of profit or loss and other comprehensive income is attributable to the owners of the parent company as well as non-controlling interests; the total amount of comprehensive income is also attributable to the owners of the parent company as well as non-controlling interests, even it leads to the loss balance of the non-controlling interests.

B. The subsidiaries in the consolidated financial statements

Name of Investor	Name of Subsidiary	Main Business	Percentage of Ownership (%)		Illustrate
			2024.12.31	2023.12.31	
Wendell Industrial Co., Ltd. (Wendell Industrial)	Wendell Co., Ltd (WDJ)	Sales of electronic parts	100%	100%	
Wendell Industrial	Wendell Pte. Ltd. (Wendell Pte)	Sales of electronic parts	100%	100%	

<u>Name of Investor</u>	<u>Name of Subsidiary</u>	<u>Main Business</u>	<u>Percentage of Ownership (%)</u>		<u>Illustrate</u>
Wendell Industrial	Wendell Korea Co., Ltd. (Wendell Korea)	Sales of electronic parts	100%	100%	
Wendell Industrial	Nichtek Industrial Co., Limited (Nichtek)	Controlling company of investee	100%	100%	
Wendell Industrial	Wendell Electrical Testing Co., Ltd. (Wendell Electrical Testing)	Testing and safety certification services	100%	100%	
Nichtek	Shenzhen Qianhong Electronic Co., Ltd. (Shenzhen Qianhong)	Sales of electronic parts	-	100%	Note
Wendell Industrial	Shenzhen Qianhong Electronic Co., Ltd. (Shenzhen Qianhong)	Sales of electronic parts	100%	-	Note
Shenzhen Qianhong	Suzhou Lianhong Electronic Co., Ltd. (Suzhou Lianhong)	Sales of electronic parts	100%	100%	
Shenzhen Qianhong	Shenzhen Qianhong Electrical Testing Co., Ltd. (Qianhong Electrical Testing)	Testing and certification services	100%	100%	

Note : The investment structure of the Group was adjusted. Nichtek originally held 100% equity of Shenzhen Qianhong. Now, the Company holds 100% equity of Shenzhen Qianhong

- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Different adjustments and handling methods of subsidiaries in the accounting period: None.
- E. Significant restrictions: None.
- F. Subsidiaries of non-controlling interests significant for the Group: None.

(4) Foreign currency transactions

Each entity in the Group determines its functional currency, and items included in the financial statements of each entity are measured using that functional currency. The Group's consolidated financial statements are presented in NT\$, which is also the Company's functional currency.

- A. Foreign currency transactions and balance
 - (A) Foreign currency transactions are translated to functional currency at the spot rate on the trading date or measurement date. The translation

difference resulting from the translation of such transactions is recognized as current profit or loss.

- (B) The balance of foreign currency monetary assets and liabilities is evaluated and adjusted at the spot rate on the balance sheet date. The translation difference resulting from such adjustment is recognized as current profit or loss.
- (C) The balance of foreign currency non-monetary assets and liabilities, if measured at fair value through profit or loss, is evaluated and adjusted to the spot rate on the balance sheet date. The translation difference resulting from such adjustment is recognized as current profit or loss.
- (D) All foreign exchange gains and losses are presented in the statement of comprehensive income within "other gains and losses".

B. Translation of foreign operating institutions

The operating results and financial position of all individuals of the Group with different functional currency and presentation currency are translated to the presentation currency using the following methods:

- (A) Assets and liabilities presented in each balance sheet are translated at the closing rate on this balance sheet date;
- (B) Income and expenses presented in each statement of comprehensive income are translated at the average exchange rate in the current period; and
- (C) All exchange differences resulting from translation are recognized as other comprehensive income.

(5) Classification of Current and Non-current Assets and Liabilities

A. An asset is classified as current when one of the following criteria is met:

- (A) It is expected to be realized, or intended to be sold or consumed in the normal operating cycle.
- (B) It is held primarily for the purpose of trading.
- (C) It is expected to be realized within twelve months after the reporting period.
- (D) The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

The Group classifies all assets that do not comply with the aforesaid conditions as non-current assets.

B. A liability is classified as current when one of the following criteria is met:

- (A) It is expected to be settled in the normal operating cycle.
- (B) It is held primarily for the purpose of trading.
- (C) It is due to be settled within twelve months after the reporting period.
- (D) Does not have the right to defer payment of liabilities for at least twelve months after the reporting period

The Group classifies all liabilities that do not comply with the aforesaid

conditions as non-current liabilities.

(6) Cash Equivalents

A cash equivalent refers to a short-term investment with high liquidity. This investment can be converted to fixed-amount cash at any time with a very small risk of change in its value. Time deposits that comply with the preceding definition with the purpose of holding to satisfy the short-term cash commitment in terms of operation are classified as cash equivalents.

(7) Financial assets at fair value through other comprehensive income

- A. Refer to financial assets measured at amortized cost, or fair value through other comprehensive income.
- B. The Group implements accounting of financial assets measured at fair value through profit or loss that comply with the trading practice on the trading date.
- C. The Group measures these financial assets at fair value upon original recognition, and recognizes relevant transaction cost as profit or loss. It will subsequently measure the assets at fair value, and recognize their interests or losses as profit or loss.

(8) Financial assets measured at amortized cost

- A. Refer to a financial asset that complies with the following conditions at the same time:
 - (A) This financial asset is held under a business model intended to collect contract cash flow.
 - (B) The cash flow from the covenant of this financial asset on a specific day is entirely for the payment of principal and interest on the outstanding principal amount.
- B. The Group implements accounting of financial assets measured at amortized cost that comply with the trading practice on the trading date.
- C. The Group measures these financial assets at fair value plus transaction cost upon original recognition, and subsequently takes effective interest method to recognize interest revenue and impairment loss within the circulation period per the amortization procedures. Besides, their interests or losses are recognized as profit or loss upon derecognition.
- D. The time deposits held by the Group that do not comply with the standards of cash equivalents are measured at investment amount in consideration of short holding period and insignificant impact of discount.

(9) Accounts and notes receivable

- A. Refer to accounts and notes already with an unconditional right to collect the amount of consideration exchanged for the transfer of products or labor services

according to contract agreements.

- B. Short-term accounts and notes receivable with interest not yet paid are measured by the Group at the original invoice amount due to insignificant impact of discount.

(10) Impairments of Financial Assets

On each balance sheet, the Group considers all reasonable and verifiable information (including forward-looking information) and then measures loss allowance for financial assets measures at amortized cost with credit risk not significantly increased after original recognition per the amount of 12-month expected credit loss; the Group measures loss allowance for those with credit risk already significantly increased after original recognition per the amount of lifetime expected credit loss; the Company measures loss allowance for accounts and notes receivable and not containing significant financial constituents per the amount of lifetime expected credit loss.

(11) Derecognition of financial assets

When the contract right of the Group to collect cash flows from financial assets becomes invalid, these financial assets will be derecognized.

(12) Inventory

Inventories are measured at cost or net realizable value, whichever is lower, while the cost is determined using the method of weighted mean. When the cost and the net realizable value are compared, item-by-item comparison method is adopted. The net realizable value refers to the balance of the estimated selling price in the normal business process after deduction of estimated cost needed for the completion of the sale.

(13) Property, plant, and equipment

- A. The acquisition cost of property, plant, and equipment is adopted as the bookkeeping basis, and relevant interest incurred in the acquisition period is capitalized.
- B. The subsequent cost is included in the carrying amount of assets, or recognized as an individual asset only when the future economic benefits related to this item are likely to flow into the Group, and the cost of this item can be reliably measured. The carrying amount of the replaced part shall be derecognized. All other repair expenses are recognized as current profit or loss upon incurrence.
- C. Cost model is adopted for the subsequent measurement of property, plant, and equipment. The property, plant, and equipment are depreciated using the straight-line method according to durable years except land that is not depreciated. If each component of property, plant, and equipment is significant, they shall be depreciated individually.

- D. The Group reviews the residual value, durable years and depreciation method of each asset at the end of each fiscal year. If the expected values of residual value and durable years are different from the previous estimates, or a significant change is already present in the expected consumption type of the future economic benefits included in the assets, the provisions of IFS 8 “Accounting Policies, Changes in Accounting Estimates and Errors” regarding the changes in accounting estimates shall be followed since the date when the change occurs. The durable years of each asset are as follows:

Machinery	3-10 years
Office Equipment	3-7 years
Leasehold improvements	3-10 years
Other Equipment	3-10 years

(14) Lessee’s lease transactions - Right-of-use assets/lease liabilities

- A. Lease assets are recognized as right-of-use assets and lease liabilities on the date when they are available for use by the Group. When the lease contract is short-term lease or lease of a low-valued target asset, the lease payment is recognized as expense using the straight-line method during the lease term.
- B. Lease liabilities are recognized as present value of the lease payment not yet paid after discounting per the incremental loan interest rate of the Group on the lease inception. The lease payment is fixed payment, and any lease incentive that can be collected shall be deducted.
Interest method is subsequently adopted for measurement per the amortized cost, and interest expenses is drawn in the lease term. When the lease term or lease payment is changed not due to modification of the contract, the lease liabilities will be reevaluated, and then the right-of-use assets will be adjusted using the gains (losses) on remeasurements.
- C. The right-of-use assets are recognized at cost on the lease inception. The cost is the originally measured amount of the lease liabilities.
Cost model is used for subsequent measurement. Depreciation expenses are drawn upon the expiry of the durable years of the right-of-use assets, or expiry of the lease term, whichever is earlier.
- D. For lease modification intended to reduce the lease scope, the lessee will reduce the carrying amount of the right-of-use assets to reflect the partial or comprehensive termination of the lease, and recognize the difference between this carrying amount and the gains (losses) on remeasurements of the lease liabilities in the profit or loss.

(15) Intangible assets

Computer software costs are amortized on a straight-line basis over its estimated useful life (1-10 years).

(16) Impairment of non-financial assets

The Group estimates the recoverable amount of an asset with a sign of impairment on the balance sheet date. When the recoverable amount is lower than this asset's carrying amount, impairment loss is recognized. The recoverable amount refers to the amount obtained by deduction of disposal cost from the fair value of an asset or its use value, whichever is higher. When the asset impairment already recognized in the previous year no longer exists or decreases, the impairment loss will be reversed. However, the carrying amount of the asset increased due to the reversal of the impairment loss shall not exceed the carrying amount of this asset deducted with depreciation or amortization given that the impairment loss is not recognized.

(17) Borrowing

It refers to the short-term amount borrowed from the bank. The Group measures the borrowings at fair value deducted with transaction cost upon original recognition. For any subsequent difference between the price after deduction of transaction cost and the redeemed value, effective interest method is adopted to recognize interest expenses in the profit or loss in the circulation period per the amortization procedures.

(18) Accounts and notes payable

- A. Refer to debts generated from the purchasing of raw materials, products or labor services on credit as well as notes payable incurred not due to business operations.
- B. Short-term accounts and notes receivable with interest not yet paid are measured by the Group at the original invoice amount due to insignificant impact of discount.

(19) Financial liabilities at fair value through profit or loss

- A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorized as financial liabilities held for trading unless they are designated as hedges.
- B. At initial recognition, the Company measures the financial liabilities at fair value. All related transaction costs are recognized in profit or loss. The Company subsequently measures these financial liabilities at fair value with any gain or loss recognized in profit or loss.

(20) Convertible corporate bonds payable

The convertible corporate bonds payable as issued by the Group are embedded with conversion right (i.e., the right of the holder to convert the corporate bonds to common shares of the Group with fixed-amount conversion and fixed number of shares converted), recall right, and right of redemption. During initial issue, the issue prices are distinguished as financial assets, financial liabilities or equity per the issue

conditions. They are handled as follows:

- A. Embedded call right and right of redemption: The net amount of fair value of these rights are entered at “Financial assets or liabilities measured at fair value through profit or loss” upon original recognition; these rights are evaluated per the fair value then upon the balance sheet, and the difference is recognized as “Interests or losses of financial assets (liabilities) measured at fair value through profit or loss”.
- B. Master contract of corporate bond: It is measured at fair value upon original recognition. The difference between the fair value and the redeemed value is recognized as premium/discount price of corporate bond payable; effective interest method is subsequently adopted to recognize it as profit or loss within the circulation period per the amortization procedures. It will be used as an adjustment item of “Financial cost”.
- C. Embedded conversion right (complying with the definition of equity): The remaining value obtained after deduction of the aforesaid “Financial assets or liabilities measured at fair value through profit or loss” and “Corporate bonds payable” from the issued amount is entered into “Capital surplus - Subscription right” upon original recognition. It will not be remeasured subsequently.
- D. Any directly attributed transaction cost issued is distributed to the constituents of each liability and equity per the original carrying amount of each of the aforesaid portfolios.
- E. When the holder is converted, the constituents of the liabilities entered into the accounts (including “Corporate bonds payable” and “Financial assets or liabilities measured at fair value through profit or loss” are treated using the classified subsequent measurement method, and then the sum of the carrying amount of the constituents of liabilities and the carrying amount of “Capital surplus - Subscription right” is adopted as issue cost for converted common shares.

(21) Derecognition of financial liabilities

The Group derecognizes financial liabilities when the obligations expressly determined in the contract are performed, canceled, or expired.

(22) Non-hedging and embedded derivatives

Non-hedging derivatives are initially recognised at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognised in profit or loss.

(23) Employee Benefits

- A. Short-term employee benefits

Short-term employee benefits are measured at undiscounted amount of expected payments, and recognized as expenses upon provision of related services.

B. Retirement benefits

(A) Defined contribution plan

For the defined contribution plan, the amount of retirement fund that shall be appropriated is recognized as current pension cost on an accrual basis. The prepaid appropriation fund is recognized as an asset within a scope of refundable cash or reduced future payment.

(B) Defined benefit plan

- I. Net obligations under the defined benefit plan are calculated through the discounting of future benefit amount earned by employees in the current period or from previous services, and the present value of determined benefit obligations on the balance sheet date is deducted with fair value of planned assets. The defined net benefit obligations are calculated annually by actuaries using projected unit benefit method. The discount rate is determined with reference to the market dividend yield of the high-quality corporate bonds that are consistent with the currency and period of the defined benefit plan on the balance sheet date; in countries without deep market for high-quality corporate bonds, the market dividend yield of government bonds is used (on the balance sheet date).
- II. The gains (losses) on remeasurements generated from the defined benefit plan is recognized as other comprehensive income in the current period, and presented in retained earnings.
- III. Relevant expenses of early service cost are immediately recognized as profit or loss.

(C) Remunerations of employee and remunerations of the Directors

Remunerations of employee and remunerations of the Directors are recognized as expenses and liabilities when there are legal or presumed obligations with amount reasonably estimable. When the actual allotment amount subsequently resolved is different from the estimated amount, it shall be handled as change in accounting estimates.

(24) Employees' Share-based payment

Share-based payment agreements closed with equity refer to the acquired employee labor services measured at the fair value of the granted equity instruments on the grant date, and are recognized as compensation cost during the vesting period. Also, equity is adjusted accordingly. The fair value of the equity instruments shall reflect the impact of the vesting and non-vesting conditions on the market price. The compensation cost recognized is adjusted according to the quantity of compensation expected to comply with service conditions and the non-vesting conditions on the market price, until the amount finally recognized is recognized at the vested quantity on the vesting date.

(25) Income Tax

- A. Income tax expenses include current and deferred income taxes. Income taxes are recognized as profit or loss except income taxes related to items included into other comprehensive income or directly included into equity which are recognized as other comprehensive income or directly recognized as equity.
- B. The Group calculates current income tax according to its business operation as well as tax rate already legislated or substantially legislated by the country where the taxable income occurs on the balance sheet date. The management shall regularly evaluate the declaration status of income tax according to relevant provisions applicable to the income tax, and estimate income tax liabilities as applicable according to the taxes payable to the tax authority. If a profit distribution proposal is passed at the Shareholders' Meeting in the year following the year when the undistributed profit is generated according to the income tax collected per the income tax law, the income tax expenses of undistributed profit may be recognized based on the actual profit distribution.
- C. The deferred income taxes are recognized using the balance sheet method according to the tax base of assets and liabilities and the temporary differences generated from the carrying amount of the deferred income taxes in the consolidated balance sheet. The deferred income taxes are not recognized if they are sourced from the original recognition of assets or liabilities in the transactions (not including business combination), and the accounting profits or taxable income (taxable loss) haven't been affected, or equivalent taxable and deductible temporary differences haven't been generated upon the transactions. If the Group is able to control the time point of reversal of temporary differences generated from investments in subsidiaries, and the temporary differences are very likely not to be reversed in a foreseeable future, such temporary differences will not be recognized. The deferred income taxes shall be calculated according to the tax rate (and tax law) already legislated or substantially legislated and expected as applicable upon realization of relevant deferred income tax assets or repayment of deferred income tax liabilities.
- D. The deferred income tax assets are recognized within a scope where the temporary differences are very likely to deduct the future taxable income. Also, the deferred income tax assets unrecognized and recognized shall be reevaluated on each balance sheet date.

(26) Share capital

Ordinary shares are classified as equity. The net amount obtained by deducting income tax from the incremental cost directly attributable to issuance of new shares or subscription right is listed as price deduction in the equity.

(27) Dividends distribution

The dividends distributed to the shareholders of the Company are recognized in the financial statements when the Shareholders' Meeting of the Company makes a

resolution to distribute dividends. The distributed cash dividends are recognized as liabilities, and the distributed stock dividends are recognized as stock dividends to be distributed and transferred to ordinary shares on the base date of the issuance of new shares.

(28) Revenue recognition

A. Sale of goods

- (A) The Group mainly operates import and export business and sales of electronic and electromechanical materials like capacitors, resistors and inductors. The revenue from sale of goods is recognized when the control of the products is transferred to the customers, i.e., when the products are delivered to the customers, the customers have discretionary power over the sales channels and prices of the products, and the Group does not have any unperformed obligations that may affect the customers' acceptance of such products. A product is deemed as delivered when it is transported to the designated place, the risks of outdatedness and loss have already been transferred to the customer, the customer accepts the product according to the sales contract, or objective evidence indicates that all acceptance criteria have been satisfied.
- (B) The revenue from sale of goods of the Group is recognized as the net amount of the contract price obtained after deduction of estimated sales allowance or price reduction. The sales allowance or price reduction provided to the customer is usually calculated on the basis of the sales volume in the current period. The Group estimates the sales allowance or price reduction based on its historical experience. The recognized amount of revenue is limited to the part which is highly likely not to be significantly reversed in the future, and the estimate is updated on each balance sheet date. The estimated sales allowance or price reduction payable to customers as related to the sale of goods is recognized as refund liability as of the balance sheet date. The collection condition of sales transaction is usually due 90-150 days after the shipment date. Since the time interval between the transfer of the promised products or services to the customer and the payment made by the customer does not exceed one year, the Group hasn't adjusted the transaction prices to reflect the time value of money.
- (C) Accounts receivable shall be recognized when the products are delivered to the customers. Since the Group has an unconditional right over the contract price from this time point, relevant consideration may be collected from the customers only with the time passing by.

B. Revenue from rendering of labor services

- (A) The Group provides electronic material testing and certification services. Revenue from rendering of labor services is recognized when the control of the transaction result of rendering of labor service is transferred to the customer, i.e., when the transaction result is delivered to the customer, and the Group does not have any unperformed obligations that may affect the customer's acceptance of this result.
- (B) Accounts receivable shall be recognized when the transaction result of rendering of labor services is delivered to the customer. Since the Group has

an unconditional right over the contract price from this time point, relevant consideration may be collected from the customers only with the time passing by.

- (C) When the services already provided by the Group have exceeded the amount payable by the customers, they shall be recognized as contract assets. If the amount payable by customers has exceeded the services already provided by the Group, they shall be recognized as contract liabilities.

(29) Government grant

A government grant is recognized at fair value when it may be reasonably assured that the enterprise will follow the conditions attached with the government grant, and this government grant can be received. If the nature of the government grant is to compensate for the expenses incurred to the Group, the government grant shall be recognized as current profit or loss during the period when relevant expenses are incurred on a systematic basis.

(30) Operation departments

The information of the operation departments of the Group is reported in such a way that is consistent with the method adopted for the internal management reports provided to the main operation decision-maker who is responsible for allocating resources to operation departments and evaluating their performance. It is identified that the main operation decision-maker of the Group is the Board of Directors.

5. Primary Sources of Uncertainties in Material Accounting Judgments, Estimates, and Assumptions

When the Group prepares these consolidated financial statements, the management has already applied its judgment to determine the accounting policies to adopt, and make accounting judgments and assumptions according to the reasonable expectations of the future events based on the situation on the balance date sheet. There may be discrepancies between the material accounting estimates and assumptions adopted and the actual results, and continual evaluation and adjustment will be implemented in consideration of the historical experience and other factors. These estimates and assumptions present a risk of significant adjustment of the carrying amount of assets and liabilities in the next fiscal year. Please see the instructions below for details regarding the uncertainties in material accounting judgments, estimates and assumptions:

(1) Material judgments adopted in the accounting policies

None.

(2) Material accounting estimates and assumptions

A. Evaluation of loss allowance of accounts receivable

When evaluating the impairment of accounts receivable, the Group shall apply

judgments and estimates to determine the future recoverability of accounts receivable, while the future recoverability is under the impact of multiple factors like the customer's financial position, the internal credit rating of the Group, historical transaction records, current economic status and other factors that may affect the customer's paying ability. When there is a doubt about the recoverability of accounts receivable, the Group may evaluate the possibility of recovery of these accounts receivable and draw appropriate allowances. This allowance is evaluated according to the reasonable expectations of the future events based on the situation on the balance sheet date. A significant change may arise if there are discrepancies between the actual results and the estimates.

The book balance of the accounts receivable of the Group was NT\$621,110 on December 31, 2024.

B. Evaluation of inventories

Since inventories are valued at cost or net realizable value, whichever is lower, the Group must apply judgments and estimates to determine the net realizable value of inventories on the balance sheet date. Due to the rapid change of science and technology, the Group evaluates the amount of inventories on the balance sheet date as corresponding to normal loss, outdatedness or absence of market sales value, and charges against the inventory cost to the net realizable value. A significant change may arise since the product demand within a specific period in the future is mainly adopted as the estimation basis of this inventory evaluation.

The book balance of inventories of the Group was NT\$291,614 on December 31, 2024.

6. Explanations of Significant Accounting Items

(1) Cash and cash equivalents

	<u>2024.12.31</u>	<u>2023.12.31</u>
Cash on hand and working capital	\$ 498	\$ 334
Cheque and demand deposits	447,754	399,014
Time deposits	194,750	78,781
Total	<u>\$ 643,002</u>	<u>\$ 478,129</u>

- A. The demand deposits mentioned above are highly liquid investments that are due within three months.
- B. The Group establishes business relations with multiple financial institutions of good credit quality to spread credit risks. Therefore, the possibility of default is very low as expected.
- C. The Group has no Cash and cash equivalents to others as collateral.

(2) Financial assets (liabilities) at fair value through profit or loss

Item	2024.12.31	2023.12.31
Financial assets mandatorily measured at fair value through profit or loss		
Hybrid instruments - financial bonds	\$ 172,695	\$ 76,676
Derivative instruments - forward exchange contracts	-	450
Derivative instruments - Right of redemption of convertible corporate bonds	658	-
Evaluation and adjustment	4,382	345
Total	<u>\$ 177,735</u>	<u>\$ 77,471</u>
Financial liabilities at fair value through profit or loss		
Derivative instruments - forward exchange contracts	(\$ 1,567)	\$ -
Derivative instruments - Right of redemption over convertible corporate bonds	(625)	800
Derivative instruments - Right of redemption over convertible corporate bonds	-	(760)
Evaluation and adjustment	625	(880)
Total	<u>(\$ 1,567)</u>	<u>(\$ 840)</u>

A. Details regarding the recognition of financial assets and liabilities at fair value through profit or loss as profit or loss are as follows:

	2024	2023
Non-derivative instruments	(\$ 1,923)	\$ 1,186
Derivative instruments	(1,120)	770
Total	<u>(\$ 3,043)</u>	<u>\$ 1,956</u>

B. Information regarding the transactions and contracts of derivative financial assets undertaken by the Group without the application of hedge accounting is described as follows:

December 31, 2024		
Derivative financial assets	Contract amount (Nominal principal) (Thousands of NTD)	Contract period
Current Item:		
Forward exchange contracts –Sale of US dollar and purchasing of NTD	USD 2,167	2024/11/05- 2025/03/03
December 31, 2023		
Derivative financial assets	Contract amount (Nominal principal) (Thousands of NTD)	Contract period
Current Item:		
Forward exchange contracts - Sale of US dollar and purchasing of NTD	USD 920	2023/11/22- 2024/02/27

The forward foreign exchange contracts signed by the Group are to avoid the risk of exchange rate resulting from the export prices. However, hedge accounting hasn't been applied.

- C. The Group hasn't provided financial assets measured at fair value through profit or loss for pledge.
- D. For information regarding the credit risks of relevant financial assets measured at fair value through profit or loss, please refer to Note 12 (2) for details.

(3) Financial assets at amortized cost

Item	2023.12.31
Current Item:	
Time deposits with original expiry date exceeding three months	\$ 2,000

- A. The amount exposed to the maximum credit risk on December 31, 2023 regarding the most representative financial assets measured at amortized cost as held by the Company is the carrying amount of the financial assets recognized given that the collateral held or other credit enhancement is not taken into account. This situation didn't exist from , 2024
- B. For information regarding the credit risks of relevant financial assets measured at amortized cost, please refer to Note 12 (2) for details.

(4) Notes and accounts receivable

	2024.12.31	2023.12.31
Notes receivable	\$ 34,890	\$ 39,522
Less: Loss allowances	(10)	(12)
	<u>\$ 34,880</u>	<u>\$ 39,510</u>
Accounts receivable	\$ 623,868	\$ 562,473
Less: Loss allowances	(2,758)	(2,880)
	<u>\$ 621,110</u>	<u>\$ 559,593</u>

- A. The average credit extension period offered by the Group to the customers lasts for 90~150 days in principle through monthly settlement. Except drawing of impairment loss for credit impairment actually occurring to individual customers, the Group calculates expected loss ratio to recognize loss allowance with reference to the historical experience and inconsideration of the customers' previous default records and current financial position as well as the future economic situation of the industry.
- B. The aging analysis of accounts and notes receivable is as follows:

	2024.12.31		2023.12.31	
	Accounts receivable	Notes receivable	Accounts receivable	Notes receivable
Not overdue	\$ 610,760	\$ 34,890	\$ 541,655	\$ 39,522
in 30 days	8,705	-	13,097	-
31-90 days	2,866	-	6,089	-
above 91 days	1,537	-	1,632	-
	<u>\$ 623,868</u>	<u>\$ 34,890</u>	<u>\$ 562,473</u>	<u>\$ 39,522</u>

The aging analysis above is carried out based on the number of overdue days.

- C. The balance of receivables (including notes receivable) contracted by the Group with customers reached NT\$658,758, NT\$601,995, and NT\$559,580 respectively on December 31, 2024, December 31, 2023, and January 1, 2023 respectively. Given that the collateral held or other credit enhancement is not taken into account, the maximum credit risk of the Group possibly resulting from the financial losses caused by the counterparties' failure to perform their obligations is the carrying amount of the financial assets recognized as of the ending date of the reporting period.
- D. The Group adopts a simplified practice to estimate the expected credit loss on the basis of preparation matrix and in consideration of characteristics such as geographical region, product type and customer rating.
- E. The Group charges against the amount of financial assets that appear not recoverable based on reasonable expectations after the recourse procedure. However, the Group will continually implement the legal recourse procedures to preserve its right over creditors' rights.
- F. The Group includes the loss ratios established based on the historical and current information in specific periods with future forward-looking considerations and adjustments, to estimate the loss allowance for accounts and notes receivable. The loss ratios on December 31, 2024 and December 31, 2023 are as follows:

	Not overdue	Overdue for 30 days	Overdue for 31-90 days	Overdue for more than 91 days	Total
<u>2024.12.31</u>					
Expected loss ratio	0.03%	0.01%-9.75%	6.41%-100%	100.00%	
Total Notes receivable	<u>\$ 34,890</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 34,890</u>
Total accounts receivable	<u>\$ 610,760</u>	<u>\$ 8,705</u>	<u>\$ 2,866</u>	<u>\$ 1,537</u>	<u>\$ 623,868</u>
	Not overdue	Overdue for 30 days	Overdue for 31-90 days	Overdue for more than 91 days	Total
<u>2023.12.31</u>					
Expected loss ratio	0.03%	0.01%-12.81%	7.92%-100%	100.00%	
Total Notes receivable	<u>\$ 39,522</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 39,522</u>
Total accounts receivable	<u>\$ 541,655</u>	<u>\$ 13,097</u>	<u>\$ 6,089</u>	<u>\$ 1,632</u>	<u>\$ 562,473</u>

G. Table of changes in loss allowance for accounts and notes receivable by the Group through the use of the simplified practice is as follows:

	2024		2023	
	Accounts receivable	Notes receivable	Accounts receivable	Notes receivable
Jan. 1	\$ 2,880	\$ 12	\$ 860	\$ 9
Drawing (reversal) of impairment loss	(35)	(1)	2,128	3
Amounts charged against due to failure for recovery	-	-	(100)	-
Amount affected by exchange rate	(87)	(1)	(8)	-
Dec. 31	<u>\$ 2,758</u>	<u>\$ 10</u>	<u>\$ 2,880</u>	<u>\$ 12</u>

In the losses drawn in 2024 and 2023, the impairment (loss) interests recognized from the receivables (including notes receivable) generated from contracts with customers were \$36 and (\$2,131) respectively.

H. For information regarding the credit risks of relevant accounts receivable and notes receivable, please see Note 12 (2) for details.

(5) Inventories

	December 31, 2024		
	Cost	Allowance for falling price loss	Carrying amount
Commodities	\$ 315,199	(\$ 62,988)	\$ 252,211
Work in process	11,143	-	11,143
Finished goods	15,683	(366)	15,317
Inventory in transit	12,943	-	12,943
Total	<u>\$ 354,968</u>	<u>(\$ 63,354)</u>	<u>\$ 291,614</u>
	December 31, 2023		
	Cost	Allowance for falling price loss	Carrying amount
Commodities	\$ 386,356	(\$ 64,888)	\$ 321,468
Work in process	4,605	-	4,605
Finished goods	9,984	(152)	9,832
Inventory in transit	595	-	595
Total	<u>\$ 401,540</u>	<u>(\$ 65,040)</u>	<u>\$ 336,500</u>

Inventory cost recognized by the Group as expenses and losses in the current period:

	2024	2023
Cost of inventories sold	\$ 1,234,802	\$ 1,073,806
Falling price loss	(1,686)	20,673
	<u>\$ 1,233,116</u>	<u>\$ 1,094,479</u>

The recovery gains generated in 2024 were mainly resulted from the Group's active handling of its slow-moving inventories.

(6) Property, plant, and equipment

		2024						
		Land	Machinery	Office Equipment	Leasehold improvements	Other Equipment	Construction in Process	Total
Jan. 1	Cost	\$ 240,928	\$ 78,916	\$ 8,363	\$ 69,157	\$ 2,665	\$ 48,476	\$ 448,505

- A. For information on guarantees provided by real estate, plant and equipment, please refer to Note 8 for details
- B. The amount of property, plant and equipment borrowing costs capitalized and their interest rates are as follows:

	2024	2023
Capitalized amount	\$ 5,820	\$ 972
Interval of capitalized interest rate	4.62%	5.69%

(7) Lease transactions - Lessee

	<u>2024.12.31</u>	<u>2023.12.31</u>
Right-of-use assets:		
Housing	\$ 41,367	\$ 43,625
Transportation Equipment (official cars)	12,427	14,428
	<u>\$ 53,794</u>	<u>\$ 58,053</u>
Leasehold liabilities:		
Current	\$ 29,219	\$ 29,507
Non-current	25,262	29,476
	<u>\$ 54,481</u>	<u>\$ 58,983</u>

- A. The target assets leased by the Group include housing and official cars. The lease contract term usually lasts for 2-5 years. The lease contracts are individually negotiated and contain various different terms and conditions. No other restrictions have been imposed except that the leased assets shall not be used for loan guarantee.
- B. The lease term of housing, parking spaces and copying machines leased by the Group does not exceed 12 months.
- C. The information of depreciation expenses of right-of-use assets recognized is as follows:

	<u>2024</u>	<u>2023</u>
	<u>Depreciation fee</u>	<u>Depreciation fee</u>
Housing	\$ 29,477	\$ 28,677
Transportation Equipment (official cars)	6,825	6,197
	<u>\$ 36,302</u>	<u>\$ 34,874</u>

- D. The right-of-use assets added by the Group in 2024 and 2023 were NT\$33,359 and NT\$25,689 respectively.
- E. The information of other profit and loss items related to lease contracts except depreciation is as follows:

	<u>2024</u>	<u>2023</u>
<u>Items that affect current profit or loss</u>		
Interest of lease liabilities	\$ 1,562	\$ 1,590
Expenses of short-term lease contracts	7,025	5,851
Interests from modification of lease	1	252

- F. The total amount of lease cash outflows of the Group reached NT\$45,106 and NT\$42,492 respectively in 2024 and 2023.

(8) Short-term loans

	<u>2024.12.31</u>	<u>2023.12.31</u>
Credit loans	<u>\$ 215,713</u>	<u>\$ 217,191</u>
Interest rate range	0.5%-6.55%	0.50%-7.30%

The interest expenses recognized in profit or loss in 2024 and 2023 reached NT\$4,161 and NT\$8,758 respectively.

(9) Other payables

	<u>2024.12.31</u>	<u>2023.12.31</u>
Compensation and bonus payable	\$ 46,183	\$ 40,436
Remunerations of employee and remunerations of the Directors payable	9,136	5,639
Payables on equipment and project	43,738	9,972
Other	22,625	20,254
Total	<u>\$ 121,682</u>	<u>\$ 76,301</u>

(10) Bonds payable

	<u>2024.12.31</u>	<u>2023.12.31</u>
Bonds payable	\$ 328,800	\$ 399,900
Less: Discounts on bonds payable	(2,740)	(10,822)
Subtotal	<u>326,060</u>	<u>389,078</u>
Less: Bonds payable - current	<u>(326,060)</u>	<u>(389,078)</u>
	<u>\$ -</u>	<u>\$ -</u>

A. Domestic convertible corporate bonds issued by the Company

(A) The issuance conditions of the first unsecured convertible corporate bond of the Company in Taiwan are as follows:

- I. The Company raised and issued the first unsecured convertible corporate bond in Taiwan with the approval from the competent authority. The total amount issued reached NT\$400,000 with nominal interest rate of 0%, and the issuance term is 3 years. The circulation period starts from June 8, 2022 and ends on June 8, 2025. Upon maturity of this convertible corporate bond, it shall be repaid by cash in a lump-sum manner per the face value of the bond. This convertible corporate bond was listed at Taipei Exchange for trading on June 8, 2022.
- II. The holders of this convertible corporate bond may request the Group for conversion of the bond to the ordinary shares of the Company from the next day after three months following the issue date of this bond to the due date except periods stipulated by relevant measures or regulations when transfer should be suspended. The rights and obligations accompanying the converted ordinary shares are same as those of ordinary shares originally issued.
- III. The conversion price of this convertible corporate bond was determined according to the pricing model stipulated in corresponding regulation governing issuance and conversion. The conversion price is NT\$ 105.9. Since the Company issued cash dividends of ordinary shares, the conversion price should be adjusted on the ex-dividend base date in accordance with the provisions of Article 11 of the regulation governing issuance and conversion. Therefore, the conversion price was adjusted from NT\$ 105.9 to 82.2.
- IV. The Company may recover all its bonds by cash per the face value of the bond at any time subsequently when the closing price of the ordinary shares of the Company exceeds 30% of the conversion price then for thirty consecutive business days, or the outstanding balance of this convertible corporate bond is lower than 10% of the original total

issue amount forty days prior to the expiry of the issuance period from the next day after three months following the issuance of this convertible corporate bond,

- V. The holders of this convertible corporate bond may require the cash redemption of the bonds they hold at the face value of the bond within forty days prior to the issuance of the bond for two years.
- VI. In accordance with the provisions of the regulation governing conversion, all the convertible corporate bonds recovered (including those repurchased from the Taipei Exchange), repaid or converted by the Company will be canceled, and all rights and obligations still accompanying the corporate bonds will be terminated and no longer issued.

(B) The face value of this convertible corporate bond was \$328,800 and \$399,900. It was converted to 863,000 ordinary shares and 1,000 ordinary shares from 2024 and 2023 respectively. The capital reserve generated from the aforesaid conversion reached NT\$65,313 and NT\$91 respectively. Furthermore, NT\$3,755 and NT\$5 of capital surplus-subscription right were reduced respectively.

(C) As of December 31, 2024, the face value of this convertible corporate bond was \$71,200, and it was already converted to 864,000 ordinary shares. However, change registration of 562,000 shares among them hasn't been completed yet. Therefore, NT\$5,620 of "Certificates of Bond-to-Stock Conversion" has been listed.

(D) As of December 31, 2024, the Company didn't repurchase this convertible corporate bond from the Taipei Exchange

- B. When issuing the convertible corporate bond, the Company separated the conversion right with nature of equity from the constituting element of each liability and recorded it in "Capital surplus - Subscription right" in accordance with IAS 32 "Financial Instruments: Presentation". As of December 31, 2024, the balance of "Capital surplus - Subscription right" was NT\$17,367. Besides, the embedded right of redemption and put right was separated according to the provisions of IFRS 9 "Financial Instruments" and considering that the economic characteristics of master contract debt products were not closely associated with risks. Also, the net amount of these embedded rights was recorded in "Financial assets or liabilities measured at fair value through profit or loss". The effective interest rate of the master contract was 1.91% after separation.

(11) Long-term loans

Type of borrowings	Borrowing period and repayment term	Interest rate	113.12.31
Long-term bank loans			
Secured Loans	Borrowing period is from December 25, 2024 to October 17, 2026; principal is repayable in full at maturity; interest is repayable monthly	2.83%	\$ 14,000
			14,000

This situation didn't exist from , 2023.

A. As of December 31, 2024 and 2023, the company's unused long-term loan amount was \$266,000 and \$0 respectively

B. Please refer to Note 8 for details of the collateral for the Group's long-term loans.

(12) Retirement pension

A. (A) The Company has established a defined-benefit retirement regulation in accordance with the provisions of the "Labor Standards Act". This regulation applies to service seniority of all former employees before implementation of the "Labor Pension Act" on July 1, 2005, as well as the subsequent service seniority of employees who chose the continual application of the Labor Standards Act after implementation of the "Labor Pension Act". For employees who comply with the conditions for retirement, their pension will be calculated according to the service seniority and the average salary in 6 months prior to their retirement. Two base numbers are provided for each year if the service seniority is within 15 years (including given figure). One base number is provided for each year if the service seniority exceeds 15 years. However, it is limited to 45 base numbers. The Company appropriates 2% of the total compensation every month as retirement fund, and deposit it in a specific account opened at the Bank of Taiwan under the name of labor retirement reserve supervisory committee. Additionally, the Company estimate the balance of the special account of labor retirement reserve mentioned above before the end of each year. If this balance is not sufficient to pay the retirement pension of laborers who are expected to comply with the retirement conditions in the next year, the Company will appropriate the difference in a lump-sum way prior to the end of March next year.

(B) Wendell Korea chooses to adopt defined payment retirement regulation according to the local laws and regulations, and draws relevant retirement pension expenses according to the projected unit benefit method.

(C) The amount recognized in the balance sheet is as follows:

	2024.12.31	2023.12.31
Present value of defined benefit obligation	(\$ 10,346)	(\$ 13,958)
Fair value of plan assets	6,447	10,051
Net defined benefit liability	<u>(\$ 3,899)</u>	<u>(\$ 3,907)</u>

(D) Movement in net defined benefit liability

Appropriation of retirement fund	-	1,044	1,044
Paying of retirement pension	1,002	(1,002)	-
Exchange difference	225	(251)	(26)
Dec. 31	<u>(\$ 13,958)</u>	<u>\$ 10,051</u>	<u>(\$ 3,907)</u>

Note: Not including amount contained in interest income or expenses.

(E) The Bank of Taiwan is responsible for handling the entrusted operation of the assets of the fund of the determined benefit retirement plan of the Company in accordance with the ratios and amount range of items entrusted for operation as determined in the annual investment utilization plan of this fund and pursuant to the items specified in Article 6 of Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund (i.e., deposit in domestic or foreign financial

institutions, investment in domestic or foreign listed, over-the-counter or private place equity securities, investment in domestic or foreign real estate and its securization products, etc.). Relevant utilization of the fund is supervised by the labor retirement fund supervisory commission. With respect to the utilization of this fund, the minimum income distributed in the annual final accounts shall not be lower than the income calculated at the interest rate of the two-year time deposit in the local bank. In case of insufficiency, it shall be supplemented by the national treasury after relevant approval is obtained from the competent authority. Since the Company is not authorized to participate in the operation and management of this fund, it is thus unable to disclose the classification of fair value of plan assets according to provisions of Section 142 of IAS 19. The fair value of the total assets of this fund was constituted on December 31, 2024 and December 2023. Please refer to the labor retirement fund utilization report of each year as announced by the government for details.

(F) The principal assumptions of the actuarial valuation were as follows:

	<u>2024</u>	<u>2023</u>
Discount rate		
-the Company	<u>1.50%</u>	<u>1.25%</u>
-Wendell Korea	<u>4.04%</u>	<u>4.60%</u>
Future salary increase rate		
-the Company	<u>3.50%</u>	<u>3.50%</u>
-Wendell Korea	<u>3.90%</u>	<u>4.80%</u>

As for the assumption of future mortality, the Company conducts estimation according to the annuity insurance mortality table of Taiwan.

Wendell Korea conducts estimation according to the statistical figures locally announced as well as relevant experience.

The present value of defined benefit obligations affected due to the change in the main actuarial assumptions adopted is analyzed as follows:

	<u>Discount rate</u>		<u>Future salary increase rate</u>	
	<u>Increase by 0.25%</u>	<u>Decrease 0.25%</u>	<u>Increase by 0.25%</u>	<u>Decrease 0.25%</u>
2024.12.31				
Impact on the present value of defined benefit obligations	<u>(\$ 220)</u>	<u>\$ 236</u>	<u>\$ 239</u>	<u>(\$ 213)</u>
2023.12.31				
Impact on the present value of defined benefit obligations	<u>(\$ 311)</u>	<u>\$ 343</u>	<u>\$ 344</u>	<u>(\$ 304)</u>

The sensitivity analysis above refers to the analysis of the impact of change in a single assumption given that other assumptions remain unchanged. In

practice, the changes of many assumptions may be linked with each other. The sensitivity analysis is consistent with the method adopted to calculate the net retirement pension liability in the balance sheet date.

The method used for the preparation of sensitivity analysis in the current period is same as that in the previous period.

- (G) The Group expects to pay appropriation amount of retirement plan as NT\$238 in 2025.
 - (H) As of December 31, 2024, the weighted average duration of the retirement plan of the Company lasts for 10.9 years; the weighted average duration of the retirement plan of Wendell Korea lasts for 9.65 years.
- B.
- (A) The Company and Wendell Electrical Testing established defined retirement pension appropriation measures applicable to all employees in Taiwan according to “Labor Pension Act” from July 1, 2005. If the employees choose to apply the labor pension system determined in “Labor Pension Act”, the Company and its subsidiaries in Taiwan withdraw 6% of salaries as labor pension to the personal accounts opened by employees at the Bureau of Labor Insurance every month. The employees’ pension will be paid on a monthly basis or in a lump-sum manner in accordance with the amount in the special personal pension accounts of employees and the amount of accumulated income.
 - (B) Shenzhen Qianhong, Suzhou Lianhong, and Qianhong Electrical Testing appropriate a certain ratio of the total amount of local employees’ remuneration as pension insurance every month according to the pension insurance system stipulated by the government of the People’s Republic of China. The pension of each employee will be managed and uniformly arranged by the government. The Group does not have further obligations other than monthly appropriation.
 - (C) Wendell Co., Ltd. and Wendell Korea appropriates pension insurance according to the retirement regulation stipulated by the local government and based on the local employees’ remuneration. This company does not have further obligations other than annual appropriation.
 - (D) In 2024 and 2023, the Group recognizes retirement pension cost of NT\$12,369 and NT\$10,873 respectively in accordance with the preceding retirement pension measures.

(13) Share-based payment

- A. The share-based payment of the Group as of December 31, 2024 is as follows:

Type of agreement	Grant date	Granted quantity	Contract term	Vesting conditions
Capital increase by cash with employee subscription reserved	January 23, 2024	710,000 shares	N/A	Immediately vested

The aforesaid share-based payment was closed with equity.

- B. For the share-based payment transaction granted by the Group on the grant date, Black-Scholes Option Pricing Model was employed to estimate the fair value of the stock options. Relevant information is as follows:

Type of agreement	Grant date	Stock price	Exercise price	Expected volatility	Expected duration	Expected dividend	Risk-free interest rate	Fair value per unit
Capital increase by cash with employee subscription reserved	2024.1.23	\$71.2	\$52.5	17.01%	0.08 year	-	1.01%	\$18.74

- C. The compensation cost recognized by the Group on 2024, due to the aforesaid share-based payment transaction was NT\$ 13,305.

This situation didn't exist from , 2023.

(14) Capital stock

- A. The normal capital of the Company reached NT\$600,000 on December 31, 2024, divided into 60,000,000 shares. The paid-in capital was NT\$304,061 with face value per share of NT\$ 10. The stock capital corresponding to the shares already issued by the Company were already received.

- B. The number of outstanding ordinary shares of the Company at the beginning and end of the period is adjusted as follows (Unit: 1,000 shares):

	2024	2023
January 1	25,104	23,908
Common Stock dividends	-	1,195
Convertible Bond	863	1
Capital increase by cash	5,000	-
December 31	<u>30,967</u>	<u>25,104</u>

- C. For the requested conversion of convertible corporate bonds in 2024 and 2023, please refer to the description of corporate bonds payable in Note 6 (10).

- D. The Board of Directors of the Company passed a resolution to handle the issuance of 5,000,000 ordinary shares through capital increase by cash on November 14, 2023. The face value per share reached NT\$ 10, and the issue price was NT\$ 52.5 per share at premium. The base date of capital increase by cash was February 26, 2024, and relevant change registration was already handled

- E. The Company approved the conversion of earnings to increase capital in 2022 through a resolution made at the Shareholders' Meeting on May 30, 2023, involving amount of NT\$11,954 and 1,195,000 shares. The base date of capital increase was August 5, 2023. Change registration was already handled.

(15) Capital surplus

In accordance with the provisions of the Company Act, the surplus obtained from the issuance of stock beyond the nominal amount and the capital surplus received from donations may be used to compensate for losses. When the Company does not have any accumulated losses, new shares or cash will be distributed to shareholders based on their original shareholding ratios by using the aforesaid surplus. Besides, in accordance with relevant provisions of the Securities and Exchange Act, when the preceding capital surplus is used to increase the capital, the total amount increased shall not exceed ten percent of the paid-in capital every year. If the Company still has a loss after the earned surplus is used to make up for the capital losses, it is not allowed to use the capital surplus to supplement the loss.

	2024		
	Share premium account	Subscription right	Total
Jan. 1	\$ 305,559	\$ 21,122	\$ 326,681
Capital increase by cash	212,500	-	212,500
Share-based payment	13,305	-	13,305
Convertible Bond	65,313	(3,755)	61,558
Dec. 31	\$ 596,677	\$ 17,367	\$ 614,044

	2023		
	Share premium account	Subscription right	Net defined benefit liability
Jan. 1	\$ 305,468	\$ 21,127	\$ 326,595
Convertible Bond	91	(5)	86
Dec. 31	\$ 305,559	\$ 21,122	\$ 326,681

(16) Retained earnings / Subsequent events

- A. In accordance with the provisions of the Articles of Association of the Company, if there are any earnings in the annual final accounts, they shall be used to pay taxes, and make up losses first if any. Then, 10% of the retained earnings may be drawn as statutory surplus reserve; however, when the accumulated amount of the statutory surplus reserve reaches the total capital of the Company, this provision shall not apply. Also, special surplus reserve may be appropriated or reversed according to relevant laws and regulations or the competent authority's provisions. If there are still remaining earnings, the Board of Directors may draw up a distribution proposal regarding the earnings and the accumulated unappropriated earnings and then submit to the Shareholders' Meeting for a resolution on the distribution of shareholder dividends.
- B. The dividend policy of the Company is determined in accordance with the current and future development plans, and in consideration of investment environment, capital demand, domestic and foreign competition, shareholders'

interests, and other relevant factors. At least 10% of the distributable earnings in the preceding paragraph shall be appropriated to distribute dividends to shareholders either by cash or stock. The cash dividends shall not be lower than 10% of the total dividends.

- C. Except compensation for the losses of the Company and the distribution of new shares or cash per shareholders' original shareholding ratios, the statutory surplus reserve shall not be used. If it is used to distribute new shares or cash, it shall be limited to the part of this surplus reserve above 25% of the paid-in capital.
- D. When distributing earnings, the Company shall draw special surplus reserve for the debit balance of other equity items on the balance sheet date of the current year according to regulatory provisions first. Later, when the debit balance of other equity items is reversed, the reversed amount may be included in the distributable earnings.
- E. During the Shareholders' Meeting on June 18, 2024 and May 30, 2023, the appropriations and distribution of earnings for 2023 and 2022 have been separately proposed and approved with the following details:
- F.

	2023		2022	
	Amount	Dividends Per Share (NT\$)	Amount	Dividends Per Share (NT\$)
Legal capital reserve	\$ 10,360		\$ 19,439	
Special capital reserve	2,322		(4,196)	
Cash dividends	120,420	\$ 4.0	121,934	\$ 5.1
Stock dividends	-	-	11,954	0.5
	<u>\$ 133,102</u>		<u>\$ 149,131</u>	

- G. Subsequent events

During the Company's Board of Directors' Meeting on March 5, 2025, the appropriations and distribution of earnings for 2024 have been separately proposed and approved with the following details:

	2024	
	Amount	Dividends Per Share (NT\$)
Legal capital reserve	\$ 21,452	
Special capital reserve	3,828	
Cash dividends	195,719	\$ 6.32
	<u>\$ 220,999</u>	

The proposal for distribution of earnings in 2024 as mentioned above hasn't been resolved by the Shareholders' Meeting yet.

- H. Please see Note 6(20) for information on remunerations of employee and the Directors.

(17) Operating revenue

	2024	2023
Revenue from contracts with customers:		
Revenue from sale of goods	\$ 1,851,992	\$ 1,572,421
Revenue from labor services	168,881	171,038
Total	<u>\$ 2,020,873</u>	<u>\$ 1,743,459</u>

A. The source of revenue of the Group is the provision of commodities and labor services gradually transferred with the time and transferred upon a certain time point. Revenue can be segmented to the following primary geological areas:

2024	Taiwan	China	Korea	Other	Total
Revenue from sale of goods	\$ 803,196	\$ 651,448	\$ 198,867	\$ 198,481	\$ 1,851,992
Revenue from labor services	147,418	16,163	166	5,134	168,881
Revenue from contracts with external customers	<u>\$ 950,614</u>	<u>\$ 667,611</u>	<u>\$ 199,033</u>	<u>\$ 203,615</u>	<u>\$ 2,020,873</u>
Timing of revenue recognition					
At a fixed point in time	\$ 803,196	\$ 651,448	\$ 198,867	\$ 198,481	\$ 1,851,992
Revenue gradually recognized with the time	147,418	16,163	166	5,134	168,881
	<u>\$ 950,614</u>	<u>\$ 667,611</u>	<u>\$ 199,033</u>	<u>\$ 203,615</u>	<u>\$ 2,020,873</u>
2023	Taiwan	China	Korea	Other	Total
Revenue from sale of goods	\$ 670,159	\$ 546,450	\$ 191,230	\$ 164,582	\$ 1,572,421
Revenue from labor services	153,982	11,457	150	5,449	171,038
Revenue from contracts with external customers	<u>\$ 824,141</u>	<u>\$ 557,907</u>	<u>\$ 191,380</u>	<u>\$ 170,031</u>	<u>\$ 1,743,459</u>
Timing of revenue recognition:					
At a fixed point in time	\$ 670,159	\$ 546,450	\$ 191,230	\$ 164,582	\$ 1,572,421
Revenue gradually recognized with the time	153,982	11,457	150	5,449	171,038
	<u>\$ 824,141</u>	<u>\$ 557,907</u>	<u>\$ 191,380</u>	<u>\$ 170,031</u>	<u>\$ 1,743,459</u>

Note: The revenue is disclosed per the locations of the customers.

B. Contract liabilities

The Group recognizes the contract liabilities related to revenue from contracts with customers as follows:

	December 31, 2024	December 31, 2023	January 1, 2023
Contract liabilities - current	<u>\$ 5,637</u>	<u>\$ 7,212</u>	<u>\$ 7,482</u>

The amount of beginning contract liabilities of the Group recognized as revenue in the current period for the years 2024 and 2023 reached NT\$6,588 and NT\$6,649 respectively.

(18) Other gains and losses

	2024	2023
Gains (losses) on foreign currency exchange	\$ 29,023	(\$ 9,347)
Gains (losses) on financial assets (liabilities) measured at fair value through profit or loss	(3,043)	1,956
Gains on modification of lease	1	252
Losses from disposal of property, plant, and equipment	(297)	(10)
Other	(256)	(1,244)
	<u>\$ 25,428</u>	<u>(\$ 8,393)</u>

(19) Finance costs

	2024	2023
Convertible Bond	\$ 7,195	\$ 7,349
Interest expense	4,161	8,758
Interest of lease liabilities	1,562	1,590
	<u>\$ 12,918</u>	<u>\$ 17,697</u>

(20) Depreciation, amortization expenses and employee benefits

	2024	2023
Salaries	\$ 253,295	\$ 230,724
Share-based payment	13,305	-
Labor and health insurance	19,104	17,917
Pension	12,930	12,087
Other employee benefits	10,194	9,799
Total	<u>\$ 308,828</u>	<u>\$ 270,527</u>
Depreciation expenses	<u>\$ 58,295</u>	<u>\$ 63,011</u>
Amortization expenses	<u>\$ 1,206</u>	<u>\$ 1,284</u>

A. In accordance with the provisions of the Articles of Association, if the Company makes a profit in the current year (i.e., before-tax interests deducted with remunerations of employee and remunerations of the Directors distributed), and there is still a remaining amount after deduction of accumulated losses, the Board of Directors shall appropriate at least 1.5% of the annual profit as remunerations of employee and no more than 3% of the profit as remunerations of the Directors respectively.

B. The estimated amount of remunerations of the Directors and remunerations of employee of the Company is listed as follows, and relevant amount is recorded as compensation expenses:

	2024	2023
Remunerations of the Directors	\$ 4,960	\$ 3,502
Remunerations of employee	4,158	2,012
	<u>\$ 9,118</u>	<u>\$ 5,514</u>

Remunerations of the Directors and remunerations of employee in 2024 and 2023 were estimated based on the annual profits and pursuant to the provisions of the Articles of Association.

According to the resolution made by the Board of Directors on March 5, 2025, the remunerations of the Directors and the remunerations of employee reached NT\$4,960 and NT\$4,158 respectively in 2024. The remunerations of employee will be paid in cash.

- C. The remunerations of the Directors and the remunerations of employee resolved by the Board of Directors in 2023 are consistent with the amount recognized in the financial statements in 2023.
- D. For information related to the remunerations of the Directors and remunerations of employee approved by the Board of Directors of the Company, please query at the MOPS.

(21) Income tax

A. Income tax expense

(A) Major components of income tax expense:

	2024	2023
Current income tax expense:		
Income tax generated by income for the current period	\$ 48,716	\$ 33,737
Undistributed earnings additionally taxed	-	1,893
Underestimation (overestimation) of income taxes in previous years	(706)	1,202
Total current income tax expense	48,010	36,832
Deferred income tax expense:		
Relating to origination and reversal of temporary differences	8,862	(6,549)
Income tax expense	\$ 56,872	\$ 30,283

(B) Income tax amount related to other comprehensive income:

	2024	2023
Remeasurement of defined benefit plans	\$ 52	(\$ 192)

B. Relationship between tax expense and accounting profit

	2024	2023
Income tax of pre-tax net profit calculated per statutory tax rate	\$ 58,029	\$ 29,093
Affected amount of items that shall not be recognized according to the provisions of tax law	2,498	279
Affected amount of income tax from investment deduction	(2,949)	(2,184)
Underestimation (overestimation) of income taxes in previous years	(706)	1,202
Undistributed earnings additionally taxed	-	1,893
Income tax expense	\$ 56,872	\$ 30,283

C. Amount of each deferred income tax asset or liability generated from temporary differences is as follows:

	2024				
	Jan. 1	Recognized in profit or loss	Recognized in other comprehensive income	Arising from consolidation	Dec. 31
Deferred income tax assets:					
- Temporary differences:					
Losses of falling price and obsolete and slow-moving inventories	\$ 12,827	(\$ 229)	\$ -	(\$ 72)	\$ 12,526

Total	\$	35,436	\$	31,587

8. Pledged Assets

The Company has pledged the following assets as collateral:

Item	Carrying amount		Content of the secured liabilities
	2024.12.31	2023.12.31	
Guaranteed deposits paid(Note)	<u>\$ 4,000</u>	<u>\$ 4,000</u>	Customs duties guarantee
Property, plant, and equipment	<u>\$ 240,928</u>	<u>\$ -</u>	Long-term loanse and Credit line guarantee

Note: Other non-current assets are recorded .

9. Significant Contingent Liabilities and Unrecognized Contract Commitments

(1) Contingencies

None.

(2) Commitments

Capital expenditure already contracted but not yet incurred

	2024.12.31	2023.12.31
Property, plant and equipment	\$ 98,845	\$ 279,641
Intangible assets	10,484	750
Total	<u>\$ 109,329</u>	<u>\$ 280,391</u>

10. Significant Disaster Loss

None.

11. Significant Events after the Balance Sheet Date

(1) Please see Note 6(16) for more information.

(2) On January 13, 2025, the board of directors of our company approved the purchase of pre-sold real estate in Xindian for office use. The total transaction amount was \$1,269,250.

12. Other

(1) Capital management

The objectives of the Group for capital management are to guarantee the continual operation of the Group, sustain the best capital structure to lower capital cost, and provide remuneration for shareholders. In order to sustain or adjust its capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, and issue new shares or sell assets to adjust into the most suitable capital structure.

(2) Financial instruments

A. Category of financial instruments

	<u>2024.12.31</u>	<u>2023.12.31</u>
<u>Financial assets</u>		
Financial assets at fair value through loss and gain	\$ 177,735	\$ 77,471
Financial assets at amortized cost (Note 1)	\$ 1,328,091	\$ 1,101,180
<u>Financial liabilities</u>		
Financial liabilities at fair value through loss and gain	\$ 1,567	\$ 840
Financial assets at amortized cost (Note 2)	\$ 557,948	\$ 448,653
Bonds payable (including current)	\$ 326,060	\$ 389,078
Lease liabilities	\$ 54,481	\$ 58,983

Note 1: Including cash and cash equivalents, financial assets measured at amortized cost, notes receivable, accounts receivable, other receivables (recorded in other current assets), and guaranteed deposits paid.

Note 2: Including short-term loans, accounts payable, other payables, long-term loans and guarantee deposit received.

B. Policy of financial risk management

(A) The daily operation of the Group is impacted by multiple financial risks, including market risks (such as risk of exchange rate, risk of interest rate, and price risk), credit risks, and liquidity risks. The overall risk management policy of the Group is determined in accordance with the economic environment, competition status, and change in market value. The Group has established relevant market risk management objectives and strived to minimize the potential adverse impact on the financial position and performance of the Group, to achieve the best risk positions, sustain appropriate liquidity positions, and centrally manage all market risks.

(B) The risk management work is executed by the Financial Department of the Group in accordance with the policy approved by the Board of Directors. By closely cooperating with each operating unit in the Group, the Financial Department is responsible for identifying, assessing, and avoiding financial risks.

C. Nature and level of significant financial risks

(A) Market risk

Foreign exchange risk

- I. Since the Group operates business internationally, it is thus subject to the risk of exchange rate resulting from different functional currencies, mainly the US dollar, used in the transactions with the Company and its subsidiaries. Relevant risk of exchange rate comes from future commercial transactions and recognized assets and liabilities.
- II. The management of the Group stipulates that the risk of exchange rate corresponding to its functional currency shall be managed by each company in the Group. Each company shall hedge their overall risk of exchange rate through the Financial Department of the Group.
- III. Since the business of the Group involves several non-functional currencies (the functional currency of the Company and some subsidiaries is NTD, while the functional currencies of some subsidiaries are RMB and KRW), it is thus influenced by the fluctuation in exchange rate. The information of foreign currency assets and liabilities with a significant impact of fluctuation in exchange rate is as follows:

		2024.12.31				
		Foreign currency (in thousand dollars)	Exchange rate	Carrying amount (NT\$)	Sensitivity analysis	
					Amount of variation	Profit or loss affected
(Foreign currency: Functional currency)						
<u>Financial assets</u>						
<u>Monetary items</u>						
	USD : NTD	\$ 20,012	32.78	\$ 655,993	1%	\$ 6,560
<u>Financial liabilities</u>						
<u>Monetary items</u>						
	USD : NTD	\$ 7,908	32.78	\$ 259,224	1%	\$ 2,592
		2023.12.31				
		Foreign currency (in thousand dollars)	Exchange rate	Carrying amount (NT\$)	Sensitivity analysis	
					Amount of variation	Profit or loss affected
(Foreign currency: Functional currency)						
<u>Financial assets</u>						
<u>Monetary items</u>						
	USD : NTD	\$ 18,790	30.71	\$ 577,041	1%	\$ 5,770
<u>Financial liabilities</u>						
<u>Monetary items</u>						
	USD : NTD	\$ 6,942	30.71	\$ 213,189	1%	\$ 2,132

- IV. The summarized amounts of all exchange gains (losses) (both realized and unrealized) of the monetary items of the Group recognized with significant impact on the fluctuation of exchange rate in 2024 and 2023 reached NT\$29,023 and (NT\$9,347) respectively.

Price risk

The Group hasn't been exposed to the risks of product price and equity instrument investment.

Risk of interest rate in cash flows and fair value

- I. The risk of interest rate of the Group mainly comes from the short-term loans issued at the floating interest rates, making the Group exposed to the risk of interest rate in cash flows.
- II. The loans of the Group are measured at amortized cost. In accordance with the contract agreements, the interest rate is repriced annually. Therefore, the Group has been exposed to the risk of change of future market interest rate.
- III. Given that the loan interest rate (NTD) increases or decreases by 1% while all other factors remain unchanged, the before-tax net profit would be decreased or increased by NT\$2,297 and NT\$2,172 respectively in 2024 and 2023, which was mainly caused by the change of the interest expenses of the loans calculated at the floating interest rate.

(B) Credit risk

- I. The credit risk of the Group mainly refers to the risk of financial losses of the Group due to the failure of customers or counterparties of financial instruments to perform their contractual obligations. It mainly comes from accounts receivable that cannot be repaid by the counterparties according to the payment terms.
- II. The Group has established credit risk management from the perspective of a group. In accordance with the credit extension policy expressly determined in the Group, each operating individual of the Group shall conduct risk management and credit risk analysis before concluding terms and conditions for payment and delivery with each new customer. The internal risk control shall be conducted in consideration of the financial position, previous experience and other factors, to evaluate the credit quality of customers. The limits of individual risks are established by the Board of Directors according to internal or external ratings, and the Board of Directors is required to regularly monitor the use of the line of credit.
- III. The Group adopts the following assumption as the basis to judge whether the credit risk of financial instruments is significant increased or default occurs after original recognition:
 - (I) If the contract payment is overdue for more than 30 days according to the agreed payment terms, it will be deemed that the credit risk of the financial assets is already significantly increased after original recognition.
 - (II) If the contract payment is overdue for more than 90 days according to the agreed payment terms, it will be deemed that default occurs.

- IV. The indicators used by the Group to determine credit impairment of debt instrument investments are as follows:
- (I) The issuer suffers a major financial difficulty, or the possibility of bankruptcy or other financial reorganization is substantially increased;
 - (II) The issuer delays or fails to pay interest or principal;
 - (III) Adverse changes in the national or regional economic situation related to the issuer's default.

(C) Liquidity risk

- I. The Company is responsible for executing the forecasting of cash flows, and the Financial Department is responsible for summarization. Also, the Financial Department monitors the forecast of the demand of the Company for working capital to ensure sufficient capital is available to fulfill the operational demand.
- II. Except those listed in the table below, the non-derivative financial liabilities of the Group are due within one year. The amount of cash flows that are significant within one year as of December 31, 2024 and December 31, 2023, including notes payable, accounts payable, and other payables, refers to undiscounted amount which is consistent with the balance of each subject in the balance sheet.

2024.12.31	<u>Less than 1year</u>	<u>2-5 years</u>	<u>5 years or above</u>
<u>Non-derivative financial liabilities:</u>			
Short-term loan	\$ 216,065	\$ -	\$ -
Lease liability	29,219	25,262	-
Long-term loans	-	14,007	-
Bonds payable (including current)	328,800	-	-
2023.12.31	<u>Less than 1year</u>	<u>2-5 years</u>	<u>5 years or above</u>
<u>Non-derivative financial liabilities:</u>			
Short-term loan	\$ 217,526	\$ -	\$ -
Lease liability	29,507	29,476	-
Bonds payable (including current)	399,900	-	-

The Group's capital management objectives are to ensure that the Group can continue to operate, maintain an optimal capital structure to reduce capital costs, and provide returns to shareholders. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to adjust to the optimal capital structure.

(3) Information of fair value

- A. Each level of evaluation techniques adopted to measure the fair value of financial and non-financial instruments is defined as follows:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date. An active market refers to a market where transactions of assets or liabilities with adequate frequency and quantity occur and pricing information is provided on a continuous basis. The fair value of hybrid instruments invested by the Group belongs to this level.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of forward foreign exchange contracts invested by the Group belongs to this level.
- Level 3: Unobservable inputs for the asset or liabilities. The fair value of the right of redemption and put right of convertible corporate bonds of the Group belongs to this level.

B. Financial instruments not measured at fair value

- (A) Except those listed in the table below, the carrying amount of cash and cash equivalents, notes receivable, accounts receivable, other payables (recorded in other current assets), short-term loans, accounts payable, other payables and long-term loans is the reasonable approximate value of fair value:

	2024.12.31			
	Carrying amount	Fair value		
		Level 1	Level 2	Level 3
Financial liabilities				
Bonds payable (including current)	\$ 326,060	\$ -	\$ 327,579	\$ -
	2023.12.31			
	Carrying amount	Fair value		
		Level 1	Level 2	Level 3
Financial liabilities				
Bonds payable (including current)	\$ 389,078	\$ -	\$ 390,777	\$ -

- (B) Methods and assumptions used to estimate fair value are as follows:

Corporate bonds payable: Measured at the present value discounted per the market interest rate on the balance sheet date according to the cash flows expected to be paid.

C. Financial and non-financial instruments measured at fair value

- (A) The Group classifies these financial instruments on the basis of the nature, characteristics, risks and fair value of assets and liabilities. Relevant information is as follows:

estimated value of the evaluation model will be appropriately adjusted according to extra parameters, e.g., model risk or liquidity risk. In accordance with the fair value evaluation model management policy and related control procedures of the Group, the management believes that relevant evaluation and adjustment are appropriate and necessary for the fair presentation of the fair value of financial instruments and non-financial instruments in the consolidated balance sheet. The price information and parameters used in the process of evaluation shall be prudently evaluated and appropriately adjusted according to the current conditions of the local markets.

D. No transfer between Level 1 and Level 2 occurred in 2024 and 2023.

E. The changes in Level 3 in 2024 and 2023 are presented in the following table:

	2024	
	Right of redemption over convertible corporate bonds	Put right over convertible corporate bonds
January 1	\$ -	(\$ 840)
Evaluated profit or loss	58	840
Current Issue Conversion	(25)	-
December 31	\$ 33	\$ -

	2023	
	Right of redemption over convertible corporate bonds	Put right over convertible corporate bonds
January 1	\$ 120	(\$ 1,320)
Evaluated profit or loss	(120)	480
December 31	\$ -	(\$ 840)

F. No transfer-in and transfer-out of Level 3 occurred in 2024 and 2023.

G. As for the evaluation process adopted by the Group for fair value classified to Level 3, relevant department is responsible for conducting independent fair value verification of financial instruments, relying on data from independent sources to make the evaluation results close to the market status, confirming that the data sources are independent, reliable, consistent with other data and represent executable prices, and regularly calibrating and updating the input value and data needed for the evaluation model as well as any other necessary fair value adjustments, to ensure the reasonableness of the evaluation results.

H. The quantified information of significant unobservable input values of the evaluation model used for the evaluation of Level 3 fair value measurement items of the Group, and the sensitivity analysis of changes of these significant unobservable input values are described as follows:

	2024.12.31 fair value	Evaluation technique	Significant unobservable input value	Interval (weighted average)	Relationship between input value and fair value
Non-derivative equity instruments:					
Right of redemption over convertible corporate bonds	\$ <u>33</u>	Binary tree evaluation model	Degree of fluctuation	39.00%	The higher the degree of fluctuation, the higher the fair value
Put right over convertible corporate bonds	\$ <u>-</u>				
	2023.12.31 fair value	Evaluation technique	Significant unobservable input value	Interval (weighted average)	Relationship between input value and fair value
Non-derivative equity instruments:					
Right of redemption over convertible corporate bonds	\$ <u>-</u>	Binary tree evaluation model	Degree of fluctuation	24.78%	The higher the degree of fluctuation, the higher the fair value
Put right over convertible corporate bonds	\$ <u>840</u>				

13. Supplementary Disclosures

(1) Information on Significant Transactions

- A. Financings provided to others: None.
- B. Endorsement / guarantee provided to others: None.
- C. Marketable securities held at the end of the period (excluding investments in subsidiaries, affiliates, and interests in joint ventures): Please refer to Attachment 1.
- D. Individual securities acquired or disposed of with accumulated amount exceeding NT\$300 million or 20% of the paid-in capital: Please refer to Attachment 2.
- E. Acquisition of property with the amount exceeding NT\$300 million or 20% of the paid-in capital: Please refer to Attachment 3.
- F. Disposal of property with the amount exceeding NT\$300 million or 20% of the paid-in capital: None.
- G. Purchases or sales of goods from or to related parties with the amount exceeding NT\$100 million or 20% of paid-in capital: Please refer to Attachment 4.
- H. Receivables from related parties amounting to NT\$100 million or 20% of paid-up capital: None.

- I. Derivatives transactions: Please refer to Note 6(2).
- J. Business relationships and significant transactions between parent and subsidiary: Please refer to Attachment 5.

(2) Information on the reinvestment business

Name of Investee Company, Location...etc. (excluding Mainland China investee companies): Please refer to Attachment 6.

(3) Information on investment in Mainland China

- 1. Basic information: Please refer to Attachment 7.
- 2. Major transactions with investees in Mainland China directly or indirectly through business in a third region: Please refer to Note13(1), 7 and 10.

(4) Information on major shareholders

Information on major shareholders: Please refer to Attachment8.

14. Segment Information

(1) General information

The Group only operates business in a single industry. The Board of Directors evaluates performance and allocates resources of the Group as a whole. It is identified that the Group is the single sector to be reported.

(2) Measurement of department information

As for the measurement of department information, the information of the department requiring reporting provided to the main operation decision-maker is as follows:

	2024	2023
Segment revenue	\$ 2,020,873	\$ 1,743,459
Segment profit or loss	\$ 271,252	\$ 131,612
Segment profit or loss includes:		
Depreciation, amortization expenses	\$ 59,501	\$ 64,295
Interest income	\$ 15,055	\$ 6,755
Finance costs	\$ 12,918	\$ 17,697

(3) Information on the adjustment of department profits and losses

Since the Board of Directors of the Group adopts after-tax net profit as the basis when evaluating departments' performance and deciding how to allocate resources, adjustment is thus not necessary.

(4) Information per product and per labor service

Please refer to Note 6(17).

(5) Information per region

The information of the Group per region in 2024 and 2023 is as follows. The revenue is disclosed based on the customers' locations, while non-current assets are disclosed based on the locations of assets.

	2024		2023	
	Income	Non-current assets	Income	Non-current assets
Taiwan	\$ 950,614	\$ 588,416	\$ 824,141	\$ 394,620
China	667,611	23,186	557,907	23,873
Korea	199,033	3,259	191,380	4,755
Other	203,615	51	170,031	575
Total	<u>\$ 2,020,873</u>	<u>\$ 614,912</u>	<u>\$ 1,743,459</u>	<u>\$ 423,823</u>

(6) Information of important customers

The Group does not have a single customer that contributes more than 10% of consolidated revenue from sale of goods.

Note 1. The information on business dealings between the parent company and subsidiaries should be numbered according to the following method:

1. For the parent company, fill in 0.
2. Subsidiaries are sorted in a numerical order starting from 1.

Note 2. Relationships with counterparties can be any one of the following three types (For a same transaction between parent company and a subsidiary or between subsidiaries, it is not required to disclose it repeatedly. For example, if the parent company has already disclosed a transaction with the subsidiary, the subsidiary will not be required to disclose this transaction repeatedly; if a subsidiary already discloses a transaction with another subsidiary, the latter will not be required to disclose this transaction repeatedly):

1. The parent company to subsidiaries.
2. Subsidiaries to the parent company.
3. Subsidiaries to subsidiaries.

Note 3. The ratio of transaction amount to total revenue or total assets is calculated as the ending balance to total assets if it is an asset or liability account. For profit and loss accounts, the calculation is based on the cumulative amount to total revenue in the period.

Note 4. Individual transactions with amount not reaching 1% of the consolidated total operating revenue and the consolidated total assets will not be disclosed.
